

WITTENSTEIN SE

The name WITTENSTEIN enjoys an impeccable reputation as the brand for innovation, precision and excellence in the field of mechatronic drive technology – not just in Germany but worldwide. Products built by the Igersheim-based high-tech company are employed wherever systems and parts have to be driven and controlled with utmost precision. High-precision planetary gearheads, complete electromechanical drive systems and AC servo systems and motors, to name but a few, are developed, produced and marketed by around 2600 employees in every corner of the globe.

The products sold by WITTENSTEIN's six Business Units are typically used in robotic systems, machine tools, the packaging industry, materials handling and process engineering, paper and printing presses, medical technology and stage and lifting technology. Parallel to this, niche markets such as the aerospace industry, drive technology in human applications and offshore extraction of natural gas and oil under the ice sheet of the Norwegian Sea or nanotechnology have been systematically targeted.

Acknowledged technological expertise and a tradition of innovativeness are the mainstays of WITTENSTEIN's success. With its fundamental orientation towards intelligent, mechatronic drive systems and a blend of micro and macro technologies, the company continues to develop its core know-how and competencies. WITTENSTEIN is inspiring for motion control and is a partner for efficient electromobility with its electrical gear systems. The group's technologies particularly include:

- Innovative gearing technology and machining in general
- Transmission technology
- Linear technology
- Electronics
- Motor technology
- Open and closed-loop control technology
- Sensor technology and software
- Simulation technology

July 2018

WITTENSTEIN develops customized products, systems and solutions for highly dynamic motion, maximum-precise positioning and smart networking for mechatronic drive technology.

Headquarter of WITTENSTEIN SE in Igersheim-Harthausen

WITTENSTEIN SE

Walter-Wittenstein-Straße 1
97999 Igersheim · Germany

The company is a setter and promoter of trends in the development, production and marketing of components. Every tenth euro is spent on, and 12 percent of employees engaged in, research and development.

WITTENSTEIN Business Units

Comprised of seven six Business Units, the company presents a single global face to the customer with its claim "WITTENSTEIN – one with the future":

WITTENSTEIN alpha GmbH

Mechanical drive components and integrated systems, customized gearheads, complete motor-gearhead-units and gearing

WITTENSTEIN motion control GmbH

Customized mechatronic drive systems for the subsea oil- and gas industry

WITTENSTEIN cyber motor GmbH

Highly dynamic servo motors and drive electronics, complete mechatronic drive systems

WITTENSTEIN intens GmbH

Intelligent, innovative implants for use in orthopaedics and traumatology

WITTENSTEIN aerospace & simulation GmbH

Powerful, high-precision actuator systems for the aerospace and simulation market

attocube systems AG

Highly precise nanopositioning devices and measurement technology for industrial applications

The digital integration of the WITTENSTEIN Group is being driven by baramundi software AG, a wholly owned subsidiary, and the WITTENSTEIN high integrity systems division, which develop secure and efficient solutions for Industry 4.0.

With around sixty subsidiaries and sales agencies in approximately forty countries, WITTENSTEIN is a globally operating, one-stop international supplier of solutions for mechatronic drive systems that is represented in all the major technology and sales markets.

WITTENSTEIN SE worldwide: key performance indicators

- Sales in 2017/18: 385 million euros (+13 %)
- Sales in 2016/17: 339 million euros (+12 %)
- Sales in 2015/16: 302 million euros (+9 %)
- Export rate: 68,9 %
- 2598 employees worldwide (March 31, 2018)
- WITTENSTEIN Academy (founded in 1999)
- Companies: 60 subsidiaries and agents in approximately 40 countries worldwide
- Trainee ratio: 10 %
- Management Board:
Dr. Anna-Katharina Wittenstein, Dr. Dirk Haft, Erik Roßmeißl and Dr. Bernd Schimpf (Spokesman)
- Chairman of the Supervisory Board: Dr. Manfred Wittenstein
